

**MOVEMBER GLOBAL CANCER REAL WORLD EVIDENCE NETWORK
REQUEST FOR PROPOSALS - PARTNERSHIP OPPORTUNITY:
DEVELOPMENT OF AN INTEGRATED ANALYTICAL DATABASE TO SUPPORT MOVEMBER'S BIOMEDICAL
RESEARCH PROGRAMS
FAQs**

15 May 2023

1. How do I submit a Request for Proposal (RFP) for this partnership opportunity?

Respondents must address the requirements, as set out in the Proposal Brief (Schedule 1) of the RFP (provide link) and submit their proposal to biomed@movember.com by 9:00AM AEST on 26 June 2023. Mailed, faxed or late submissions will not be accepted.

You should receive an automatic confirmation of receipt of your submission. If you do not receive the confirmation, please contact biomed@movember.com.

2. Is the Proposal Brief available in PDF?

Yes. A copy of the Proposal Brief (Schedule 1) with a list of the Requirements is now available for download under the 'Live Opportunities' section on <https://movember.com/about/funding>.

3. What is the overall budget of the program?

It is expected that this integrated analytical database will be built fit-for-purpose for both Movember and the successful Respondent to use independently for their own programs / purposes. As such, this partnership will require co-funding for the development and ongoing maintenance of this database by both Movember and the successful Respondent.

Movember's proposed investment in the development of this integrated database is up to AUD \$2 million for 24 months.

4. When will the funding be available for the Successful Respondent?

All funding will be provided in tranches based on milestone delivery. Movember will work with the Successful Respondent to determine the milestones according to the applicant's proposal and timelines.

5. In what timeframe is the successful Respondent expected to complete the proposed integrated database?

This integrated database will need to be delivered within 18-24 months from the commencement date.

6. Will Movember provide funding for a fellowship and/or post doc position?

If the delivery of the agreed data infrastructure requires a fellowship / post doc to lead and/or take part in a specific activity, then funding may be provided if it is included in the overall budget and proposal.

Please note Movember will **not** fund the following expenditure:

- Institutional overhead costs
- Tuition and professional membership dues
- Capital costs, including costs associated with construction, renovation or rental of offices, laboratories or other supporting facilities.
