INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Movember Canada

We have audited the accompanying financial statements of Movember Canada, which comprise the statement of financial position as at April 30, 2016, the statements of operations, changes in net assets and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Notes to Financial Statements

Year ended April 30, 2016

Movember Canada (the "Organization") is a charitable organization dedicated to promoting awareness for men's health. The Organization was previously incorporated on November 12, 2010 under the Canada Corporations Act and charitable status was obtained on July 25, 2011 (registration number 84821 5604 RR0001) and was continued under the Canada Not-for-profit Corporations Act in February 2014. The Organization is not required to pay income taxes, while it maintains its status as a charity.

1. Significant accounting policies:

(a) Basis of presentation:

These financial statements have been prepared in accordance with Canadian accounting standards for not-for-profit organizations ("ASNPO"), using the deferred method of accounting for contributions.

(b) Revenue recognition:

The Organization follows the deferral method of accounting for revenue. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Pledged donations are recorded when received due to uncertainty involved in their collection.

Interest income is recorded on an accrual basis.

(c) Cash and cash equivalents:

Cash and cash equivalents consist of cash on hand, bank balance and guaranteed investment certificates with a duration of less than 90 days from the date of acquisition.

Notes to Financial Statements (continued)

Year ended April 30, 2016

1. Significant accounting policies (continued):

(d) Capital assets:

Capital assets are recorded at cost less accumulated amortization. Amortization is provided on a straight-line basis using the following annual rates:

Furniture and fixtures	20%
Computer equipment	40%
compater equipment	10 70

(e) Financial instruments:

Financial instruments are recorded at fair value on initial recognition. Freestanding derivative instruments that are not in a qualifying hedging relationship and equity instruments that are quoted in an active market are subsequently measured at fair value. All other financial instruments are subsequently recorded at cost or amortized cost, unless management has elected to carry the instruments at fair value. The Organization has not elected to carry any such financial instruments at fair value.

Transaction costs incurred on the acquisition of financial instruments measured subsequently at fair value are expensed as incurred. All other financial instruments are adjusted by transaction costs incurred on acquisition and financing costs, which are amortized using the straight-line method.

Financial assets are assessed for impairment on an annual basis at the end of the fiscal year if there are indicators of impairment. If there is an indicator of impairment, the Organization determines if there is a significant adverse change in the expected amount or timing of future cash flows from the financial asset. If there is a significant adverse change in the expected cash flows, the carrying value of the financial asset is reduced to the highest of the present value of the expected cash flows, the amount that could be realized from selling the financial asset or the amount the Organization expects to realize by exercising its right to any collateral. If events and circumstances reverse in a future period, an impairment loss will be reversed to the extent of the improvement, not exceeding the initial carrying value.

Notes to Financial Statements (continued)

Year ended April 30, 2016

1. Significant accounting policies (continued):

(f) Contributed goods and services:

A number of volunteers contribute a significant amount of time each year to assist in carrying out the Organization's service delivery activities. In addition, businesses and corporations contribute in-kind gifts and/or services. Because of the difficulty in determining the fair value, contributed gifts and services are not recognized in the financial statements.

(g) Allocation of expenses:

Certain support expenses are allocated to other functions based on either task-based service or estimated effort expensed.

(h) Use of estimates:

The preparation of financial statements in conformity with ASNPO requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Significant items subject to such estimates and assumptions include the amortization of capital assets and accrued liabilities. Actual results could differ from those estimates.

2. Investments:

Investments held consist of term deposits, bearing coupon rate in the range of 1.25 to 1.55% (2015 - 1.00 to 1.55%) with maturity dates ranging from December 19, 2016 to July 24, 2018 (2015 - August 7, 2015 to October 7, 2015).

The amounts due to Movember Group are related to services provided by the headquarters. During the year, services provided to the Organization totalled \$3,261,506 (2015 - \$2,156,527).

The transactions are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

8. Financial instruments:

The Organization manages its liquidity risk by monitoring its operating requirements and prepares budget and cash forecast to ensure it has sufficient funds to fulfill its obligations.

As at year end, the cash and cash equivalents are earmarked towards disbursement to PCC and Global Action Plan Programs and other charitable initiatives and discharge of liabilities.

There was no change to the above risk exposure from 2015.

(b) Interest rate risk:

The Organization is exposed to interest rate risk on its fixed interest rate term deposits. However, the risk associated with investments is reduced to a minimum since the Organization staggers the term deposit maturity dates.
